NORMAS TÉCNICAS IEC
IEC 62271–100: High voltage alternating current Circuit breakers
IEC 60376: Specification and acceptable of new sulphur hexafluoride
IEC 60427: Synthetic testing of high voltage Alternating current circuit breakers
IEC 61233: High voltage alternating current Circuit breakers inductive load switching

NORMAS TÉCNICAS IEEE
IEEE Std C37.04: Rating structure for AC high voltage circuit breakers rated on a symmetrical current basicurrent basis
IEEE Std C37.06: AC high voltage circuit breakers rated on a symmetrical current basis – Preferred ratings and related required capabilities
IEEE Std C37.09: Test procedure for AC high voltage circuit breakers rated on a symmetrical current basis
