

**LARGELY BY TRAFFIC...** In these pictures we can see the town traffic with the exhaust gases of various cars which pollute the air we breathe.

**POOR AIR...** In this picture we can see all the hardships that car exhaust and factory lead in the air. Many times all of these drains lead to the death of innocent people.

**TO CUT POLLUTION ON THE GROUNDS...** In this photo we can see that not only the air is polluted, but also the environment that surrounds us, even just throwing waste on the ground.

**ENVIRONMENT SECRETARY...** In this photo we can see Caroline Spelman, the British environment secretary in charge of protecting the environment by preventing even more pollution.
