

Individual Assignment 1: Identify a statement that can be decomposed into an IF...THEN rule and decompose to its individual elements.

Statement:

A couple is considered infertile if the woman does not conceive a child after one year of unprotected, well-timed intercourse or she has been unable to carry a pregnancy to a live birth.

IF a woman does not conceive a child after one year of unprotected sex

IF a woman does not conceive a child after one year of well-timed intercourse

IF a woman has not been able to carry a pregnancy to a live birth

THEN a couple is considered infertile
