

# Finding usage counts in Web of Science

The screenshot displays the Web of Science search results interface. At the top, there are navigation tabs for 'My Tools', 'Search History', and 'Marked List'. Below this, a 'Sort by' dropdown is set to 'Publication Date -- newest to oldest', and a page indicator shows 'Page 1 of 290'. The main content area lists search results, with the first article highlighted: 'Characterization of free and conjugated phenolic compounds in fruits of selected wild plants' by Ahmad, Naveed; Zuo, Yuegang; Lu, Xiaofei; et al. Below the article title are buttons for 'Find Full Text', 'Full Text from Publisher', and 'View Abstract'. To the right of the article list, a 'Usage Count' popup is visible, showing 'Last 180 Days: 74' and 'Since 2013: 74'. The popup is circled in red. A dashed box highlights the text in the center of the image, which provides instructions on how to find usage counts.
